

### Partnering with small and medium-sized manufacturers to create rewarding workplaces and growth

- Actively engage as a partner and work together to solve problems
- Aim for one-stop problem-solving by growing with your team
- Solve problems in a repeatable way

### About Us

**Representative :** Katsuyoshi Tashiro  
**Company Name :** Factory Kaizen Service, Inc.  
**Establishment :** March 2023  
**Headquarter :** Toyohashi, Aichi, Japan  
**Business:** Support for on-site improvement for the manufacturing industry

I worked for Toyota Motor Corporation for 16 years, where I was involved in quality control, Lean production system, and the launch of new vehicles. As a leader, I promoted large-scale process layout changes and realized the importance of shop-floor improvements. However, I felt that small and medium-sized manufacturers were in real trouble, so I founded Factory Kaizen Service Co.

### Service Features

#### 01 Lean production system

#### 02 Quality Control Problem Solving

### Overview of the support industry.

e.g. Semiconductor Equipment Company A

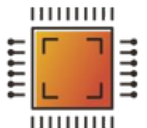

Reduced in-process defects, halved the defect rate, and created 4 hours of spare time per day. The extra time saved shortened delivery time.

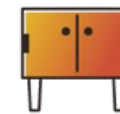

Automobile Parts

Metals

Semiconductor

Wood processing

Daily necessities

Foods
